### **Information on the art activity for "shadow children", co-financed through art works donated to the 2017 exhibition "Sheep"**

Sales revenue from works donated to the 2017 exhibition "Sheep" will be used to co-finance a weekend art activity for so-called "shadow children" in July 2018. Shadow children are children whose brother or sister suffers from a severe illness and so becomes unintentionally the center of family life. As a consequence, the healthy children must comply with the family's daily routine and appointments of their sick siblings to the effect that their childhood is severely impacted.

During the art activity, we want to give these "shadow children" the opportunity to take center stage. We organize a creative weekend with typographies, games and fun activities. The programme includes an overnight stay and a closing exhibition at which the young artists can present their graphic art works to their families and friends.

The association "Kinderpalliativmedizin Wesel Löwenzahn & Pustebelme e. V." is a club of dedicated individuals who support children and teenagers with a life-shortening disease and their families living in the region of Wesel. [www.loewenzahnundpustebelme.de](http://www.loewenzahnundpustebelme.de)

We would appreciate your support for further activities!
